Merci à tous de votre participation. *Thank you very much for contribution.*
L'équipe de rédaction a conçu et réalisé ce bulletin grâce à la collaboration des 91 collègues qui ont répondu cette année à notre questionnaire.

Foreword / Avant-propos

The present bulletin is the result of the work realized by the CIM-secretariat during 2008-2009, in collaboration with colleagues that have kindly sent informations and answered the questionnaire. Thank you very much to all of you for constructive help and useful contribution.

In June 2009, the CIM society comprises 178 members that shows a stabilization since several years, and a slight increase compared to 2007-08. 11 members were registered in 2008-2009. Several candidates for membership are hoped for 2009-2010. In the mean time, 4 members have been removed from the list in 2008 after decease, resignation or complete disappearance during at least four years.

91 people sent a reply to the questionnaire 2008/2009, that shows a better communication level compared to 2007-08. Some members answered the postal way, other via e-mail or directly from the webpage. We guess that the recent international congress has slowed down the lack of communication detected in 2007.

Besides the management of the Society through the Webpage, Secretariat and Treasury, and the development of the CIM as an international scientific Society, one of the main activity we managed during the period 2007-2008 was the organisation of the 14th International Congress of Myriapodology (14ICM) and the General Assembly of our Society.

The former President John Lewis and myself remind you that 2008 was a very important year for the CIM Society and the myriapodological community. It was the **40th Anniversary of the CIM** (1968-2008) and we succeeded to commemorate this date with special events during the meeting at Görlitz (Germany). We had to vote for the renewal of the CIM Council for 2008-2011 during the CIM General Assembly held during the Congress on July 25th, 2008. Michelle Hamer, our South-African former Vice-President, was elected as CIM President 2008-2011 and our Hungarian colleague Zoltan Korsós was elected as new Vice-President. The new Council is listed in this bulletin.

Best wishes and regards

Jean-Jacques GEOFFROY General-Secretary of the CIM

Presidential Reports 2005-2008 and 2008-2009

John G. E. Lewis, Former President 2005-2008

Michelle Hamer, President 2008-2011

The Moral Report by the former President John G. E. Lewis has been pronounced during the General Assembly held at Görlitz on July 2008 (See the report on the General Assembly for additional comments and information).

The Moral Report 2008-2009 by the new President Michelle Hamer will be published in the next CIM Bulletin 43, 2010.

Our thanks are again due to the Secretariat of the Centre International de Myriapodologie Paris, namely Dr Jean-Jacques Geoffroy (General-Secretary) and Dr Monique Nguyen-Duy Jacquemin (Treasurer), whose constant hard work ensures the continued development of our successful international scientific society. It is time that ways were found to lighten their workload. Our thanks are also due to Jean-Paul Mauriès, Michelle Hubert and Dominique Moro for the invaluable contribution that they have made to the CIM during the recent years that they have been part of the Bulletin editorial squad.

Election of Council Members

The General Assembly at Görlitz elected the new CIM Council on 25th July, 2008. The Board and Executive Committee were elected during a meeting of the new Council.

The list and composition of the Council and Board 2008-2011 is published in this bulletin.

How to become a member of the CIM

Anyone aiming to become a regular active member of the **Centre International de Myriapodologie / International Society for Myriapodology** has to simply send a request for candidature to the General-Secretary.

The new candidate is invited to send his request via a simple informative mail or e-mail. The new candidate is invited to send his complete address, telephone, e-mail address, and the topics related to myriapodology in which he is involved. To this document is joined a short *curriculum vitae* including age, position and interests of the candidate.

The new candidate must be supported by one proposer (sponsor, godfather), regular member of CIM in good statement.

The candidature is registered by the General-Secretary and forwarded to the members of the Council. The candidate is accepted after evaluation by the Council.

The new member is informed and is therefore invited to send his subscription to the Treasurer.

The name and research activities of the member are listed in the CIM Directory and the member receives the CIM Bulletin and the CIM questionnaire.

Informations on statutes and rules are available on

Tuf, Jana Tufova, Karin Voigtländer, Jolanta Wytwer, Willi Xylander.

Apologies, excused and represented: Jean-Paul Mauriès, Monique Nguyen Duy - Jacquemin, Luis Pereira, Rowland Shelley.

The quorum is represented. The General Assembly can be validly held.

1 — Opening / Words and moral report by the President John Lewis

John Lewis reads his short report as published in the CIM Bulletin Volume 41.

The general assembly votes on this report

Against = 0 Abstentions = 0 The President moral report is unanimously adopted.

2 — Introduction and activity report by the General-Secretary J.-J. Geoffroy

Jean-Jacques Geoffroy reads his report as published in the CIM Bulletin Volume 41. This does not need to be formally adopted by voting.

3 — Financial Report and amount of the annual subscription

Monique Nguyen Duy - Jacquemin, Treasurer, presents her financial report 2007 as published in the Bulletin 41 and as sent to every CIM members.

The general assembly votes on this report

Against = 0 Abstentions = 0 The financial report is unanimously adopted

The amount of the subscription 2009 is discussed. The proposal from the Council is to maintain the amount as 30 euros to ever full member in good statement.

There have been some objections to the proposal to increase the subscription for members paying in US dollars. Due to currency fluctuations many countries are potentially affected by currency changes. This does not concern only people from North America but mainly members from Asia who used to pay in dollars via bank transfert. The CIM Secretariat and Treasury propose the fees for CIM should only be in a single currency - Euros - in the future, euro being the currency used for current CIM expenses. This will make life much easier as at the moment a large part of the payments made in dollars are 'lost' and given to the banks. For instance, CIM often gets 6-7 euros for a payment of 30\$ from Japan or Canada. As ther expenses of CIM are paid in Euros this seems a sensible approach for the future. Besides, a practical way is to pay directly in cash with Euros, as many members already use to do.

The General Assembly should be reminded that it will accept non paying members if there is a good reason for their non payment (low income). In this way it is a very flexible and understanding Society.

CIM is happy that maintaining the subscription at 30 Euros to ever full member in good statement is financially ok. There is no increase in this case since more a decade.

4 — Recent active members and new candidates for membership

In 2007 we accepted 2 new members (Farzalieva G. Sh., from Russia and Snyder Bruce A., from USA). In early 2008 (so far), we accepted 1 new member (MA Hui-Qin, from China).

Lost Ex-Members 2007 are 3: [ADIS Joachim (Germany) : deceased; CSCF (Switzerland) : resignation; REVEILLET Pierre (France) : deceased].

Lost Ex-members 2008 are 4: [CELERIER Marie-Louise (France) : resignation; FLOREZ DAZA Eduardo (Colombia) : no answer since years; FODDAI Donatella (Italy) : no more contact; WILSON Heather (USA) : no more contact].

We had 9 additional new applications for membership during the congress:

Miguel DOMINGUEZ CAMACHO, Germany, proposed by Markus Koch

Leandro DRAGO, Italy, proposed by Alessandro Minelli

Tanja GRGIC, Slovenia, proposed by Ivan Kos

Mihaela Constanta ION, proposed by Stefan Negrea

Michael JORGENSEN, USA, proposed by Petra Sierwald

Beata NASCIMENTO, Cape Verde, proposed by Jolanta Wytwer

Piyatida PIMVICHAI, Thailand, proposed by Henrik Enghoff

Kevin PITZ, USA, proposed by Petra Sierwald
Andy SOMBKE, Germany, proposed by Carsten Müller & Jörg Rosenberg

5 — Honorary members proposed by representatives of the former board

Present Honorary Members : they are currently 10.

- DEMANGE Jean-Marie (France)
- DUNGER Wolfram (Germany)
- GROMYSZ-KALKOWSKA Kazimiera (Poland)
- HOFFMAN Richard L. (USA)
- JEEKEL Casimir A. W. (The Netherlands)
- KRAUS Otto (Germany)
- MAURIES Jean-Paul (France)
- NEGREA Stefan (Romania)
- PEITSALMI Maija (Finland)
- SCHELLER Ulf (Sweden)

Honorary members are long established retired, members who have contributed greatly to the study of Myriapoda and to the CIM life. The new CIM Council will consider new proposals.

6 — 15th International Congress of Myriapodology, 2011 / proposal for Australia

The proposal to go to Melbourne is presented by Robert (Bob) Mesibov and Megan Short. B. Mesibov makes a presentation about the proposal for Melbourne. There will be an option for a pre or post congress excursion.

A website of the congress will be open in mid-2009 with a pre-inscription form.

The CIM General Assembly agrees formally by acclamation.

7 — Further International Congresses of Myriapodology

The proposal for the 16th ICM at Olomouc (Czech Republic) is still on the table and formally confirmed. Karel Tajovsky and Ivan Tuf give a few words about this.

There are a general discussion from the floor about the way to register proposals, a possibility to go back to USA (Chicago) and comments upon any offers for 2014 and 2017.

8 — Renewal of the Council

The present Council 2005-2008 comprises 10 members

Henrik Enghoff (Denmark):	elected2002	reelected2005	reellegible2008
Michelle Hamer (South Africa):	elected2002	reelected2005	reellegible2008

Rowland Shelley (USA):	elected2002	reelected2005	reellegible2008
Karel Tajovsky (Czech Republic):	elected2002	reelected2005	reellegible2008

John Lewis (President) will be stepping down as President and a council member.

Helen Read is also standing down as a council member.

Stefan Negrea (Romania), honorary member, proposes to give help to the council. Honorary members are not Council members as the latter are taken from the active ordinary membership. But it is part of their tatus to give advise to the Society and Council.

Due to the current constitution all council members can only serve for two re-elections, this also applies to the President. As many of the Council members started at the same time this means a big change in 2011. For this reason, i.e. to ensure continuity it was proposed that the Constitution should be changed to allow the President to serve an extra period if necessary. There are two problems with this: administratively this makes some work and the membership might not agree to this.

John Lewis explains this and why the continuity aspect is important. The result is to change the constitution.

ARTICLE II - OFFICERS (edition 2007 of the CIM Constitution and By-Laws)

Section 1: 5 to 10 Council Members shall be elected by a majority of the votes cast by members in good standing in a ballot at the General Assembly.

Section 2: The President serve for three years, or until his successor is elected, and can be re-elected twice; his three-years duty period shall begin with the closure of one International Congress of Myriapodology and cease with the closure of the next International Congress. The President may serve an extra period if necessary.

Section 3: The Council Members shall each serve for three years. Their duties shall begin with the closure of one International Congress of Myriapodology and cease with the closure of the next International Congress. Council Members can be re-elected for one or two times.

There are 10 candidates for 10 seats to the Council renewal 2008-2011. The result of the vote is:

Henrik Enghoff	Elected 2002	re-Elected 2005	re-Elected 2008	NON-reeligible2011
Michelle Hamer	Elected 2002	re-Elected 2005	re-Elected 2008	NON-reeligible2011

9 — Miscellaneous questions: websites, databases, journal of myriapodology...

These are general comments from the floor.

Web report. Hans Reip and Norman Lindner from are working on Myria-lit which is a database of myriapod literature. It is asked to be available to all and a good option would be via the CIM Website if this could be done via a simple link.

International Journal of Myriapodology. Henrik Enghoff and Pavel Stoev give an update to inform members.

10 — Closure of the General Assembly by the President John Lewis

MEETING OF THE CIM COUNCIL

This was immediately after the General Assembly. The agenda for this included election of President and Vice-President and also the confirmation of the appointment of Secretary and Treasurer.

FINANCIAL BALANCE 01-01-2008 – 31-12-2008

15th International Congress of Myriapodology Melbourne, Australia, 20-25 November 2011

The 15th International Congress of Myriapodology (15ICM) will be held in the historic Royal Society of Victoria building in Melbourne, Australia from Sunday, 20 November to Friday, 25 November 2011. On behalf of the organising committee and the Centre International de Myriapodologie, we invite you to participate in this scientific conference devoted to centipedes, millipedes, velvet worms, Pauropoda and Symphyla.

All but one of the previous CIM-facilitated congresses have been held in Europe and the USA. At the 2008 congress in Germany, the CIM formally approved a proposal to have the 2011 congress in Melbourne. This will be the first time a myriapodology congress has been held in Australia, and only the second time in the Southern Hemisphere. As with earlier congresses, 15ICM will begin with a social get-together late on Sunday. There will be four days of single-session meetings beginning Monday morning, interrupted on Wednesday by a full-day tour of the mountain forests northeast of Melbourne, the Healesville Wildlife Sanctuary and the scenic vineyard country of the Yarra Valley. A pre-conference tour is also being planned and 15ICM will officially end on Friday evening at the conference dinner.

The first decade of the 2000s has seen a resurgence of interest in the still little-known myriapod faunas of Australia, the southwest Pacific and southeast Asia. It can be expected that regional participation in the Melbourne congress will be greater than that seen at European and American venues. Some 80-100 registrants will be on hand to attend.

If you are interested in participating in the 15ICM Conference, please complete the Expression of Interest Form. Your information will be sent via email to the Conference Secretariat.

Should you have difficulty for some technical reasons, kindly copy and paste the following information into your email and send to the conference manager sally.brown@uq.net.au

Check the website <http://www.15com.org> [<http://www.15icm.org>] late in 2010 for accommodation possibilities and prices, registration details and a provisional 15ICM program.

INTERNATIONAL JOURNAL OF MYRIAPODOLOGY

Editor in Chief: Henrik Enghoff, Managing Editor: Pavel Stoev

The International Journal of Myriapodology is published jointly by Pensoft and Brill.

<http://www.brill.nl/ijm> The journal will be published in an online version as well as on paper.

Online submission: Articles for publication in the International Journal of Myriapodology can be submitted online through Editorial Manager

The International Journal of Myriapodology is an international journal publishing original research on Myriapoda as well as Onychophora which have traditionally been "adopted" by myriapodologists. The journal's main scope is taxonomy in a broad sense, but includes other disciplines like ecology, evolution, genetics, morphology, palaeontology, parasitology, phylogeny, physiology, and zoogeography.

The following categories of papers are considered:

- Feature articles – papers based on original research;
- Review articles – longer articles, offering a full overview or historical perspective of a topic
- Short communications – short (max. 2 pages) articles including correspondence, reports on new species
- Book reviews and announcements

ZOOKEYS

We invite you to submit a manuscript on millipede systematics to a special issue of the rapid-publication, open access journal ZooKeys.

This will be the second such issue in 2009. The first ZooKeys issue devoted to millipede systematics appeared on 7 April 2009 and its three papers can be downloaded from the journal website:

SCHUBARTIANA

You are invited to check the three first volumes of a journal on myriapods, which occurred in 2004.

The journal is named after Dr. Otto Schubart who wrote the important "Diplopoda" as Part 28 of the "Tierwelt Deutschlands" and many other papers dealing with myriapods of course.

Many informations are integrated in the website www.schubartiana.de which contains an English version. So you can find Aim & Scope, Instructions to the authors and a preliminary table of contents (only announced contributions).

TASMANIAN MULTYPEDES IDENTIFICATION GUIDE – WEBSITE AND CD-ROM

'Tasmanian Multipedes' is an illustrated, online guide to the identification of the centipedes, millipedes, symphylids, pauropods and velvet worms (onychophorans) of Tasmania. The updated version 2007-2008 is at the web address: <http://www.qvmag.tas.gov.au/zoology/multipedes/mulintro.html>

Spatial data basics for Tasmania <http://www.utas.edu.au/spatial/locations/index.html>

I'm happy to report that Bob Mesibov has now full-time access to the Tasmanian Multipedes and Millipedes of Australia websites. This means he will be updating these sites as soon as he has relevant new information, and he will no longer be announcing updates.

AUSTRALIAN MILLIPEDES CHECKLIST

Australian Millipedes Checklist <http://www.qvmag.tas.gov.au/zoology/millipedes/index.html>

Dr Robert Mesibov mesibov@southcom.com.au

to make it easier to navigate from page to page. Instead of a table of links at the top of each page, there is a left-hand sidebar with a categorical arrangement of subjects and taxa. The sidebar also has links to two previously hidden pages: the museums list and the interactive mapper.

'Millipedes of Australia' currently includes 139 pages and thousands of internal and external hyperlinks. All pages have been validated as HTML 4.01 Transitional, all links have been checked with the W3C link checker and font sizes have been designed around the defaults in Firefox, Opera and Internet Explorer. If you have any problems viewing or linking to any pages, please let me know. Ignoring subspecies, the site currently treats 355 native Australian millipedes in 57 genera, and lists 21 introduced species. Depending on how you do your estimate, this leaves two-thirds to four-fifths of the Australia fauna still to be described.

As always, I would be very grateful for advice on any new taxonomic publications which refer to Australian millipede genera or species.

WEB PAGES IN USA

Website on the Myriapoda <http://www.nadiplochilo.com/index.html>

It has again become necessary for me to move my website on the Myriapoda, but it is now fully set up with all photo gallery pages although there are a few minor "bugs" to be worked out. For example, when checking pages in the photo gallery, it isn't now possible to click the "back" arrow to return to the preceding page, which needs to be fixed, but in the meantime you can go back by just Xing out of that page. I also need to add more photos to the Living and Deceased Myriapodologists pages. Since I am now running it personally with the help of a professional web designer, it will be kept in the condition that I desire for it. The new link, which I've added to my signature below, is <http://www.nadiplochilo.com/index.html>

Please bookmark it if you are interested.

CHILOBASE

An electronic catalogue of world Chilopoda is available and improved online at the address <http://chilobase.bio.unipd.it/>

Chilobase is intended to be a catalogue of all known centipedes (Chilopoda) of the world. It is an electronic database, publicly and freely available through the World Wide Web. Based on a nomenclator of available genus- and species-level names, it is intended to offer, as far as possible, a consistent, updated taxonomic system for the Chilopoda. In a searchable web-based format, it aims to be a user-friendly reference database for faunistic, ecological and medical research, as well as to stimulate further taxonomic research. The project has been supported by GBIF (Global Biodiversity Information Facility), see <http://www.gbif.org/>.

The database is hosted at Department of Biology, University of Padova, and is currently managed by Lucio Bonato and Marco Uliana.

All feedback is welcome. In particular, we would be grateful for any future submission of data, and for flagging existing errors.

Beron, P. 2008. *High Altitude Isopoda, Arachnida and Myriapoda in the Old World*. ISBN 978-954-642-309-2, Pensoft Series Faunistica No. 73, ISSN 1312-0174. 165x240, maps and color photos, bibliography. In English. Hardback, 556pp.

ORDER at <http://pensoft.net/newreleases/14112.htm> orders@pensoft.net fax +359-2-8704282

Large groups of non-insect arthropods such as the terrestrial Isopoda, Arachnida and Myriapoda recorded higher than 2,200 meters above sea-level are listed from all mountain systems of Africa, Europe and Asia (including New Guinea). The maximum altitude for each species, genus, family, order and class is reported. This is the first compilation of this kind ever produced. The groups are compared between the different regions and the levels of endemism are outlined. A short description of each region shows the most peculiar features of high-montane terrestrial life in the Balkan and Iberian peninsulas, the Alps, the Tetras, the Caucasus, the Himalayas, as well as in the mountains of Turkey, Central Asia, South-East Asia, Japan, New Guinea, the Cameroon, eastern and southern Africa, Madagascar, North Africa, the Canary Islands and others. The trend in the number of species and genera decreasing with altitude, termed "taxogradient", is analyzed. Such new terms as "hybsobiont" and "hybsoendemic" are also introduced. The bibliography contains more than 1,300 references.

Festschrift towards the 75th Anniversary and a Laudatio in Honour of Academician Yuri Ivanovich Chernov. Pensoft Publishers and KMK Scientific Press, Sofia, Moscow, 530 pp. ISBN 9789546424525

165x240, collection of 21 papers, biography and bibliography of Yurii Ivanovich Chernov, Yuri Ivanovich Chernov is one of the greatest modern experts in ecology and biogeography, Arctic regions in particular, not only in Russia but globally. His main monographs are "Nature Zonation and Terrestrial Animal Life" (1975), "Structure of the Animal Population of the Subarctic" (1978) and "Life of the Tundra" (1980), all in Russian. The latter book was later published in English as "The Living Tundra" (1985) with Cambridge University Press and, together with the second edition, for 20 years became the only truly indispensable manual of tundra science in the world. In the present collection of papers, some of Y. I. Chernov's students or followers attempt to reflect upon a number of the synecological and biogeographical paradigms he advanced. The constituent papers seem to unite their authors' urges towards arriving from facts to a phenomenon, and from phenomena to patterns, this being so characteristic to the way of thinking of Yuri Ivanovich himself.

The volume contains review papers on yeast, myxomycetes, soil microfungi, mosses, higher plants, nematodes, oribatid mites, millipedes, spiders, collembolans, ants, beetles, butterflies, and birds. The book is addressed to botanists and zoologists, ecologists, biogeographers and anyone interested in the nature of the polar and adjacent regions.

List of works published in 2008 & early 2009 in the field of Myriapodology s. l.

checked and listed by J.-J. Geoffroy
[CIM Secretariat - MNHN, Paris and Brunoy]

The following list of works is the result of a query and questioning managed by the CIM-Secretariat after replies to the CIM questionnaire, analysis of papers, books and proceedings and also from the subject area Natural Sciences of several bibliographic databases such as BioOne Abstracts and Indexes, Aquatic Sciences and Fisheries Abstracts, Biological Sciences Biosis, Current Contents, Medline, Name Conference Papers Index, Toxline and Zoological Record, according to the query profile: (Myriapod* or Diplopod* or Chilopod*) or (Symphyl* or Pauropod* or Onychophor*) or (Centiped* or Milliped* or Mille-Patte*) or ((Velvet Worm*) or Peripat*)

The list comprises references published in 2007-2008 and early 2009, but only partly. Some lacking references published in 2006 have been included. Part of references published in 2007-2009 will be listed in the issue of the CIM Bulletin n° 43, 2010.

Some references could be missing. Please let us know additional references you could find related - more or less- to myriapods or onychophorans.

WORLD DIRECTORY OF THE MYRIAPODOLOGISTS

Addresses and Specialities

Maintained by J.-J. Geoffroy, CIM Secretariat [MNHN, France]

The name is followed by address, telephone, fax, e-mail and by a formula of any letters (code below) indicating the specialities.

A	Arthropoda	t	taxonomy - phylogeny - nomenclature
M	Myriapoda	a	anatomy - structure
C	Chilopoda	p	physiology
D	Diplopoda	o	ontogeny - development
Dp	Polyxenida	b	biology - behaviour
P	Pauropoda	e	ecology - ecophysiology - ecotoxicology
S	Symphyla	ag	agronomy
O	Onychophora	pa	parasitology - microbiology
		c	cytology - histology - cell-chemistry
		u	ultrastructure
		n	neurosecretion - endocrinology
		f	paleontology - fossils
		bg	biogeography
		bs	biospeleology - subterranean biology
